

YANISS BANTSE

Lexington, KY | +1 (859) 979-2415 | yaniss-bantse@uky.edu | github.com/salas-son-programming | linkedin.com/in/yanissbantse

SUMMARY

Computer engineering student with hands-on experience building small projects using Arduinos, Python and JavaScript, and a strong interest in software development, Robotics and artificial intelligence. Passionate about learning, solving real-world problems, and contributing to impactful products through clean, well-structured code.

EDUCATION

UNIVERSITY OF KENTUCKY—B.S. in Computer Engineering,

August 2025-now

- Expected Graduation: **May 2028**
- GPA: **3.8 / 4.0**
- Honors: **Dean's List, TAU BETA PI Engineering Honor Society**
- Relevant Coursework: **Design of logic circuits, Systems programming, Introduction to practice of engineering, Introduction to embedded systems**

SKILLS

- Programming languages: **PYTHON, JAVASCRIPT, HTML/CSS, C++**
- Embedded Systems: **TM4C123 (GPIO, UART), Arduino (basic, self-directed learning), Sensors**
- Python libraries and modules: **Random, Pygame, PyQt5, math, datetime, NumPy, Requests**
- Framework and tools: **VScode, Git, GitHub, PyCharm, Arduino IDE, MATLAB, Onshape**
- Fluent in French and English
- Microsoft Office 365

PROJECTS

Hydroponic Monitoring System | Arduino, C++, Arduino IDE, MATLAB, Onshape, Sensors

- Developed sensor-based monitoring system to measure water level, temperature, and pH for plant growth optimization.
- Implemented data processing logic using C++ on the Arduino platform.
- Integrated a water pump system to regulate water flow and maintain proper nutrient conditions.

AI-Powered Study Assistant | JavaScript, Openai API

github.com/salas-son-programming/AI-STUDENT-ASSISTANT

- Developed an AI-powered web application that helps students understand and summarize complex concepts in real time.
- Integrated API to generate simplified explanations and concise summaries based on user input.
- Implemented a caching system to reduce redundant API calls and improve performance.
- Designed and built a responsive user interface using HTML, CSS, and JavaScript for an intuitive user experience.
- Created a history feature using localStorage to allow users to revisit previous queries and results.
- Optimized AI output by enforcing simple, human-readable formatting and removing complex mathematical notation.

Pixel Runner Game | Python, PyCharm, Pygame

github.com/salas-son-programming/Pixel-Runner-Game

- Developed a 2D runner game using Python and Pygame
- Implemented real-time player movement, gravity, and collision detection
- Designed interactive game loop with event handling
- Integrated sprite rendering, UI elements, and start/restart game states

Website Projects

[website to try the projects](#)

- A collection of frontend projects I built using vanilla JavaScript, HTML, and CSS. These projects helped me strengthen my skills in DOM manipulation, animations, APIs, responsive design, and interactive UI development.

Embedded Systems Lab (TM4C123 Microcontroller) | C, GPIO, UART

- Implemented basic embedded system functionalities using the TM4C123 microcontroller.
- Worked with GPIO for input/output operations and UART for serial communication.

WORK EXPERIENCE

POMME ROUGE SARL-CAMEROUN (Car Rental Company) | EXECUTIVE ASSISTANT

December 2022 – May 2025

- Managed financial operations, including salary payments and vehicle-related expenses such as fuel and maintenance;
- Coordinated daily administrative tasks, helped track and organize company resources using Microsoft tools like Excel and Word;
- Worked closely with the CEO to support decision-making and streamline business processes in a fast-paced environment;
- Gained experience in financial management, accountability, and organizational support.

LEADERSHIP AND INVOLVEMENT

UNIVERSITY OF KENTUCKY STUDENT AMBASSADOR

August 2025 – Now

- Represent the University of Kentucky in my home country, promoting academic programs and campus opportunities.
- Provide guidance on admissions scholarships, majors, and student life to help students make informed decisions.
- Develop strong communication skills by engaging with diverse students and addressing their questions clearly and effectively
- Demonstrate leadership by guiding prospective students, encouraging involvement in campus activities

TAU BETA PI Engineering Honor Society

University of Kentucky—Member (2026)

- Selected based on academic excellence and engineering character
